## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Douglas D. Russell on 29 August 2005.

The application has been amended as follows:

**In the claim:**

Please amend claim 13 as follow:

13. (currently amended) A computer-implemented method of visualizing similarity relationships between documents comprising:  
using a reference hierarchical document;  
performing a similarity search based on user selected attributes of the reference hierarchical document and determining a result set of target documents comprising 0 to n hierarchical documents;  
converting ~~each~~ the reference hierarchical document and the 0 to n hierarchical documents to a unique visualization model ~~node~~ nodes that visually ~~represents~~ represent ~~each~~ the hierarchical document documents to be displayed on a graphical user interface;

using the similarity search results, creating a unique visualization model ~~edge~~ edges that visually ~~represents~~ represent the similarities between the reference hierarchical document and each similar hierarchical document in the result set to be displayed on a graphical user interface; and indicating a degree of similarity between the displayed unique visualization model nodes by the displayed unique visualization model edges.

2. Claims 1 – 25 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggests using the similarity search results, creating a unique visualization model edges that visually represent the similarities between the reference hierarchical document and each similar hierarchical document in the result set to be displayed on a graphical user interface; and indicating a degree of similarity between the displayed unique visualization model nodes by the displayed unique visualization model edges.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
